9 The unofficial reply received from the Senior Surgeon is that if the Senior Surgeon's recommendation is sanctioned, there will be the amount of the allowance of the Hospital Assistant visiting the Distillery being met from the Medical Budget while the cost of medicines supplied by him is debited to the Excise Budget. It is however a point for consideration whether it is necessary that the Government should undertake to supply medicines to the Officials employed at the Distillery because the Distillery is at a distance from the city where medical aid is freely given to patients attending the Hospital & Dispensaries

18 The incidence of the charge for medicines will depend on the manner of supply

(1) The arrangement maybe that the Hospital Assistant shall in his prescription distinctly write the name of the Govt Employe for whom the medicines are prescribed and the Employe may be required to have the prescription dispensed in a Govt ~~hospital~~ dispensary. In this case, the Hospital will not charge him and there will be no question of adjustment of cost

(2) Arrangement maybe made to allow the Excise department to have a small stock of medicines for use of the Employes and if this is done the Medical Stores will supply free on indents and no question of cost payment or adjustment would arise.

In both of the above cases the

(3) The employés might be permitted to ~~both~~ have the prescriptions ~~to be~~ dispensed in private medical rooms and the payment claimed from the Excise Commissioner. In this case, the charge should be adjusted in the Excise Accounts.

I am not aware which of the above three systems would be adopted. The second system ~~is~~ generally leads to waste and the third is liable to abuse.

The first is the one most convenient from all points of view and it is I know the system in force in the Shillong Hills where the Government clerks are granted free medical help

20 The Comptroller is probably not aware that the Govt Dispensary is situated at a distance of at least 3 miles from the Government Distillery and that it is not possible to give effect to his 1st Suggestion as the officials cannot be called upon to do all the leaving work of conveying the prescriptions dispensed in a Govt Dispensary

The 2nd Suggestion appears to be the best A small stock of medicines to be supplied from the Medical Stores may be maintained in the Distillery and the Hospital Assistant visiting it required to keep regular accounts of the stock consumed by the Peons so that there may be no wastage as apprehended by the Comptroller

SIR,

Adverting to Government Proceedings No 2804-5 dated 13th September last directing
Rev dl 67-05-2
that the Cost of the medicines Supplied to the Government Distillery should be borne by the officials of the Distillery I have the honour to submit that excepting the two Inspectors and one Accountant, all the Officials receive very small pay and are not capable of purchasing medicines. If they are obliged to pay the cost they will go to the Dispensaries in the City, where medicines are given gratis. This will cause inconvenience

inconvenience to Government work, to avoid which a medical officer was sanctioned to visit the Distillery periodically. Further the cost of medicines will not be so large, and I therefore solicit the favour of reconsideration of the order in question

2. I am given to understand that in Dispensaries established for the convenience of the officials working in out-of-the-way places no charge is made for the medicines.

I have the honour to be,
